

AI Full-Stack Developer | React, Node.js, Data Structures

✉ gopibanjara87@gmail.com | ☎ [7389600475](tel:7389600475) | 📍 Indore , Madhya Pradesh

🌐 <https://github.com/gopi374> | 🔗 <https://www.linkedin.com/in/gopi-banjara>

Skills

Hard Skills: HTML/CSS, Python, React.js, Node.js, MongoDB, JavaScript, Java, C++, Advanced SEO Techniques, Express.js

Soft Skills: Communication, Critical thinking, Teamwork, Problem-Solving, Presentations

Work Experience

Web developer - Codsoft Dec 2025 - Jan 2026

HTML/CSS, React.js, Node.js, JavaScript

- Delivered web projects, showcasing skills in 'HTML/CSS', 'React.js', 'Node.js', 'JavaScript'
- Contributed to team goals by performing tasks diligently and following instructions
- Gained practical experience and developed new web development skills through project work

Technical Projects

Professional Highlights 2025

HTML/CSS, React.js, Node.js, JavaScript, TypeScript, Express.js

🔗 [GitHub Repository](#) 🔗 [Live Demo](#)

- This project website highlights my technical projects and skills i have with a responsive, user-friendly design.
- Developed using HTML5, CSS3, and JavaScript to follow current web standards.
- Showcases practical experience in building clean and efficient web applications.

Smart Food Donation Network 2026

HTML/CSS, React.js, Node.js, MongoDB, JavaScript, Wireframing, Firebase

🔗 [GitHub Repository](#) 🔗 [Live Demo](#)

- Developed a MERN platform linking hotels and NGOs using geospatial matching, enabling quick pairing within 30 seconds.
- Implemented real-time notifications and maps, streamlining food donations and reducing waste.

Expense Tracker 2026

React.js, Node.js, MongoDB, JavaScript, Data Modeling, Express.js, Postman, REST APIs

🔗 [GitHub Repository](#) 🔗 [Live Demo](#)

- Built full-stack expense platform with 5+ core features for tracking and financial summaries
- Implemented JWT authentication and protected APIs for secure user data
- Developed RESTful APIs for 2 key workflows,income & expense management
- Designed for 10k+ users,enabling efficient personal expense tracking

Problem Solving & Data Structures

🔗 [LeetCode](#)

- Proficient in 10+ data structures: Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Hash Tables, and Heaps.
- Strong understanding of 5+ algorithmic techniques, including Sorting, Searching, Dynamic Programming, Greedy Algorithms, DFS, and BFS
- Experienced in time/space complexity analysis and applying system design principles to build efficient real-world solutions.
- Solved 200+ DSA problems across arrays, strings,LinkList, stack, and DP, strengthening problem-solving, optimization.

Education

SAGE University

B.Tech | Computer Science Engineering (2024 -2028)

Evergreen English Higher Secondary School Percentage: 81.2

Class XII (2024)

Evergreen English Higher Secondary School Percentage: 80

Class X (2022)

Certifications

- [Cisco Essential 1](#) -Cisco (February 2026 -Present)
Skills learned: C++
- [AWS Security](#) -Amazon Web Services (November 2025 -Present)
Skills learned: Generative AI, Threat Intelligence, Big Data Processing, AWS, Cloud Security

- [Deloitte Australia](#) - Forage (January 2026 - Present)
Skills learned: Data Modeling, Data Integration, Data Architecture, Data Security
- [Artificial Intelligence Workshop Certification - AI Academia](#) - Yahiya (May 2025 - May 2025)
Skills learned: Python, Deep Learning, AI Model Optimization, Big Data Processing
- [Frontend Development](#) - Reena Vaktariya (January 2025 - January 2025)
Skills learned: HTML/CSS, Python, React.js, JavaScript

Achievements

- Awarded 1st place in "Best Strategy" competition at Techfest, IIT Bombay, demonstrating strategic aptitude.
